Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: as applicants properly point out, starting on page 12 of the remarks, that the closest prior art of Bultman, et al do not teach or suggest that the stage 42 (See Fig. 12 of Bultman, et al) constitutes two stages, it is clearly a single stage supporting a single wafer for measurements of both sides of the wafer. One of ordinary skill in the art would assume that the stage 42 is not two stages, but rather is a stage having a section removed, i.e., having a doughnut-shaped or annular geometry, to allow observation of both sides of the wafer. Hence, and in view of applicants' arguments the obviousness rejection thereof to independent claims 1 and 17 is withdrawn, making independent claims 1 and 17 allowable over the closest prior art of Bultman, et al, and since dependent claims 2-16 and 18-22 further limit these claims, they are allowable also for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
